# ROTT VIKINGFESTIVAL

This years great Viking-event in the Stavanger-region, will happen on the saga-island of **Rott**, just of the coast, west of Stavanger, from June 15. to the 17. Here on this beautiful and exciting island, with history back to the stone ages, the Viking-group **The Hafrsfjordvikings** will host an exclusive festival, **The Rott Viking Festival**.

**Note the dates - June 15. to 17.**

The 10 min. boat trip to and from the island is scheduled twice per hour, from the fishing village Tananger. On the island there will be Viking ships, traders, fighters, musicians, storytellers and much, much more. Every evening there will be special events for the participants. For example on Saturday there will be two concerts with the local Celtic inspired band “The Tramps”, one for visitors and one for camp participants.

We would now like to welcome you, our Vikingfriends, to a fantastic Viking weekend on an incredible island where time stood still.
